Girard says that the current delivery schedule is OK with him as long as it doesn't continue to change. Nicki

The following schedule for completed tool kits at PMX is acceptable to me. However, the increased production in the later weeks is slightly reminiscent of what happened with the ashtrays. If we can hold to this schedule, we'll be fine.

	7/4	7/11	7/18	7/25	8/1
AMS	50	50	50	100	161
OMEGA	123	170	167	254	
TOTAL	173	393	610	964	1125

Thanks for all the information. It make my life a heck of a lot easier!!!

Gerard
